Today the children are visiting the Brinkworth Preschool. They will be sharing in many play based activities and also sharing in a German language session.

The chooks have settled in with one egg being produced a day. Thanks to Megan McGregor for looking after the chickens during non kindy time.

We have a new workbench thanks to the fantastic fundraising efforts by all of you. The children now have all the equipment they need to be creative.

Our new outdoor setting has arrived. The setting has been purchased to provide a comfortable place for families to sit whilst at the kindy. Cheryl has also sourced a couch to add to comfort and warmth of the centre.

Congratulations to Hayley and Ben on the birth of their son Benson, both are doing well.

Our annual parent opinion survey has been placed in your child’s communication pocket. Please take the time to complete as your responses are used to set priorities for 2016.

A strong sense of community

I feel very privileged to write that the family involvement in our centre is at near 100%. The contribution that you make to your child’s preschool education is outstanding. This leads me into the importance of our philosophy statement. This statement underpins all that we as a community do here. I have attached a copy, please take the time to read. I would love your input into any changes that you think are required or any information that could be added.

Regards Vicki
