Welcome back to the 2013 kindy year. We are all fortunate to have a freshly painted kindy, new built in cupboards and upgraded display boards. Thankyou to everyone for helping pack up, clean and prepare the kindy for improvements.

Learning
The children will be introduced to the “You Can Do It” program early in term 1. The program is based around developing children confidence, persistence and resilience.

The children will also be starting a physical activity program supporting the development of gross motor skills.

I look forward to catching up this week to discuss your child’s learning goal for this term. I will also be completing a “Holiday & Christmas” information sheet and would appreciate your imput after I have gathered information from the children.

New Kindy Schedule
Please find attached the revised Term 1 kindy schedule. The Easter Holiday period has been added.

Regards Vicki

With the extreme heat upon us it is important to ensure your child is adequately protected. As a reminder please ensure you apply sunscreen prior to kindy.

Bushfire Safety at Snowtown Kindy
As you would already know the kindy is situated in an area of high risk.

A Bushfire Action Plan has been written and the summary is displayed on the verandah notice board.

If the Bureau of Meteorology and the CFS issue a forecast of catastrophic (code red) bushfire weather conditions within the Fire Ban District, the Snowtown Kindergarten will be CLOSED.
